

JENIFER R

Fresher | Aspiring Software Developer | React.js · Java · JavaScript · SQL
+91-9514228671 | jeniferchristie27@gmail.com | Chennai, Tamil Nadu | github.com/jenifer-rj

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building React.js single-page applications and RESTful API integrations. Proficient in the full front-end stack (HTML5, CSS3, JavaScript ES6+) and familiar with Java OOP and SQL. Seeking an entry-level Software Developer or Junior Frontend Developer role to contribute to a product team and grow through real-world development work.

EDUCATION

B.Sc. Computer Science | Jun 2023 | CGPA: 81%

Shri Shankarlal Sundarbai Shasun Jain College for Women, Chennai

Higher Secondary Certificate (HSC) | Apr 2020 | Score: 68%

Rajalakshmi Vidhyasharam Matriculation Hr. Sec. School, Chennai

Secondary School Certificate (SSLC) | Apr 2018 | Score: 90%

Rajalakshmi Vidhyasharam Matriculation Hr. Sec. School, Chennai

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, SQL, HTML5, CSS3

Frontend / UI: React.js, Responsive Web Design (RWD), Flexbox, CSS Grid, Mobile-First Design

React: Hooks (useState, useEffect), Functional Components, Props & State Management, Component-Based Architecture

APIs & Async: RESTful API Integration, Fetch API, Async/Await, JSON, Asynchronous Programming

Tools: Git, GitHub, Visual Studio Code, Eclipse IDE

CS Fundamentals: OOP, Data Structures, Problem Solving, Debugging, Cross-Browser Compatibility

PROJECTS

Recipe Finder Web Application | Personal Project 2024

Tech Stack: React.js | JavaScript (ES6+) | REST API | HTML5 | CSS3 | Git

GitHub: github.com/jenifer-rj/recipe-finder

- Built a fully responsive Single Page Application (SPA) using React.js Hooks (useState, useEffect) for state management and lifecycle control.
- Integrated TheMealDB RESTful API using Fetch API with async/await, enabling real-time search and category filtering with zero page reloads.
- Architected reusable components — SearchBar, RecipeCard, CategoryFilter — improving code maintainability and separation of concerns.
- Implemented a Random Recipe Generator feature, increasing user engagement by surfacing new content on every visit.
- Designed a fully mobile-responsive UI with CSS Flexbox, CSS Grid, and a mobile-first approach ensuring compatibility across all screen sizes.
- Added robust error handling and fallback UI for failed API calls and empty search results, improving application resilience.
- Optimised performance by minimising unnecessary re-renders through targeted state management and efficient component design.

CERTIFICATIONS & TRAINING

Java Full Stack Development — Java, JavaScript, React.js, HTML5, CSS3, SQL | Qspiders | Completed

Typewriting — Lower Level Certificate | Completed
